

## Good Riddance (Time of Your Life)

(Verse 1)

G                      Cadd9                      D  
Another turning point, a fork stuck in the road  
G                      Cadd9                      D  
Time grabs you by the wrist, directs you where to go  
Em                      D      C                      G  
So make the best of this test and don't ask why  
Em                      D      C                      G  
It's not a question but a lesson learned in time

(Chorus)

Em                      G                      Em                      G  
It's something unpredictable, and in the end it's right  
Em                      D                      G  
I hope you had the time of your life.

(Verse 2)

G                      Cadd9                      D  
So take the photographs and still frames in your mind  
G                      Cadd9                      D  
Hang it on a shelf, in good health and good time  
Em                      D      C                      G  
Tattoos of memories and dead skin on trial  
Em                      D      C                      G  
For what it's worth it was worth all the while.

(Chorus x3)

Em                      G                      Em                      G  
It's something unpredictable, and in the end it's right  
Em                      D                      G  
I hope you had the time of your life.
